

International Center for Earth Tides

BIM 137
15th of October 2002

Table of content for publication

10849-10861 Harnisch M. & Harnisch G.

READ IT Seasonal Variations of Hydrological Influences on Gravity Measurements at Wettzell.

10863 Zerbini S., Richter B., Romagnoli C., Lago L., Domenichini F. & Simon D.

READ IT Effects of environmental parameters on height and gravity variations.

10865 Nawa K., Suda N., Aoki S., Shibuya K., Sato T. & Fukao Y.

READ IT Influence of sea level variations in seismic normal mode band on superconducting gravimeter observation at Syowa Stat

10867-10874 Zürn W.

READ IT Simplistic models of vertical seismic noise above 0.1 mHz derived from local barometric pressure.

10875-10879 Zürn W. & Neumann U.

READ IT Simplistic models of atmospheric signals in horizontal seismograms.

10881-10886 Fischer K.

READ IT Sources and transfer mechanism of seismic noise: Finite-Element Modeling.

10887-10892 Exß J. & Zürn W.

READ IT Reduction of noise in horizontal long period seismograms using local atmospheric pressure.

10893-10899 Mentés Gy.

READ IT Microbarograph for investigation of geodynamical phenomena caused by atmospheric pressure variations influenced by lunisolar effects.

10901-10906 Eperne Papai I. & Mentés Gy.

READ IT The effect of atmospheric pressure on strain measurement at the Sopron Observatory, Hungary.

10907 Ishii H.

READ IT Environmental effects on strain observation, their applications for geophysical study and necessity of deep borehole observation for noiselessly high quality.

10909-10916 Kopaev A. & Milyukov V. **NEW**

READ IT Environmental effects in tide strain observations near the Mt. Elbrus, Central Caucasus.

10917-10926 Westerhaus M. & Welle W.

READ IT Environmental effects on tilt measurements at Merapi volcano.

10927-10930 Klügel Th.

READ IT Tilt variations at shallow depth: implications for the installation of a laser gyroscope at the Geodetic Observatory Wettz

10931-10936 Jentsch G., Graupner St., Weise A., Ishii H. & Nakao Sh.

READ IT Environmental effects in tilt data of Nokogiriyama Observatory.

10937-10951 Broz J., Simon Z., Dupac J. & Zeman A. **NEW**

READ IT Two feedback systems to the Gs 15 n° 228 gravimeter.
