

# 141BIM

15 th of August 2006

---

## Table of content for publication

- 11173-  
11174  
[.doc](#)  
[.pdf](#) JENA MEETING, March 27-31, 2006
- 11175-  
11184  
[.doc](#) Ducarme B.  
Comparison of some tidal prediction programs and accuracy assessment of tidal gravity predictions
- 11185-  
11188  
[.doc](#) Ducarme B., Qinwen XI.  
A problem with the Venus terms in the ETERNA software
- 11189-  
11200  
[.doc](#) Ducarme B., Vandercoilden L., Venedikov A.P.  
Estimation of the precision by the tidal analysis programs ETERNA and VAV
- 11201-  
11210  
[.doc](#) Ducarme B., Neumeyer J., Vandercoilden L., Venedikov A.P.  
The analysis of Long Period tides by ETERNA and VAV programs with or without 3D pressure correction
- 11211-  
11212  
[.doc](#)  
[.pdf](#) Zahran K.H.  
World wide synthetic tide parameters, a promising tool for high precision tidal prediction(*abstract*)
- 11213-  
11224  
[.doc](#) Panepinto S., Greco F. , Luzio D. , Ducarme B.  
An overview on wavelet multi-resolution decomposition compared with traditional frequency domain filtering for continuous gravity data denoising
- 11225-  
11226  
[.doc](#) Sun H.P., Zheng W.D., Xu J.Q, Hsu H.Z  
Detection of the Special Gravity Signals in Sub-tidal Band by Using a Wavelet

- [.pdf](#) Techniques(*abstract*)
- 11227-11234 Varga P.
- [.doc](#) Volcanic activity and tidal heating of Saturn's moon Enceladus
- 11235-11244 Barlik M., Bogusz J., Olszek T.
- [.pdf](#) Plans for gravimetric measurements at Jozefoslaw Observatory
- 11245-11252 Jentzsch G., Jahr T., Ishii H.
- [.doc](#)  
[.pdf](#) News from the Geodynamic Observatory Moxa: the 4-component borehole strainmeter
- 11253-11262 Mentés GY., Berta Z., Eper-Papai I.
- [.doc](#) Stability investigation of the new three-dimensional extensometric observatory in Bakonya, Hungary
- 11263-11270 Mentés GY., Eper-Papai I., Kis M., Ujvár G
- [.doc](#) New results of the extensometric measurements at Budapest observatory
- 11271-11276 Jahr Th., Jentzsch G., Gebauer A.
- [.doc](#) Observations of fluid induced deformation of the upper crust of the Earth: investigations about the injection experiment at KTB site, Germany
- 11277-11286 Woith H., Venedikov A.P., Milkereit C., Parlaktuna M., Pekdeger A.
- [.doc](#) Observation of crustal deformation by means of wellhead pressure monitoring
- 11287-11292 Varga P., Mentés GY.
- [.doc](#) Strain data and seismicity
- 11293-11302 Steffen H.
- [.pdf](#) The importance of instrument location on barometric pressure induced noise
- 11303-11304 Sato T., Rosat S., Tamura A., Matsumoto K.
- [.doc](#) [.pdf](#) An attempt to improve the estimation accuracy of the atmospheric pressure effect (*abstract*)
