**A DETAILED GRAVIMETRIC SURVEY OF AN AREA
IMMEDIATELY SOUTH AND EAST OF ST. CHARLES,**

MISSOURI

Kailash Chandra Chandiook., B. Sc., M. Sc., M. Geol. E.

**Thesis Presented to the Faculty of the
Graduate School of Saint Louis University in
Partial Fulfillment of the Requirements for
the Degree of Master of Science**

1950

TABLE OF CONTENTS

	<u>Contents</u>	<u>Page</u>
Chapter 1	INTRODUCTION	1
	The Problem	2
	Method of Attack	3
	Survey Procedure	3
	Errors Involved	4
	Field Work	5
	Acknowledgements	6
Chapter 2	DESCRIPTION OF THE LOCALITY	8
	Area and Communications	8
	Climate	8
	Physiography	9
	Missouri Flood Plain	9
	Terraces	10
	Upland	11
Chapter 3	GENERALIZED STRATIGRAPHIC TABLE FOR ST. LOUIS COUNTY AND REVIEW OF GEOLOGIC LITERATURE	13
	Generalized Stratigraphic Table for St. Louis County	14
	Review of Geologic Literature	21
	General Geology of the County	21
	Quaternary Deposits	24
	Lafayette Formation	27
	Pennsylvanian	28
	Mississippian	30
	Ste. Genevieve	30
	St. Louis	31
	Spargen	31
	Warsaw	32
	Keokuk	32
	Burlington	32
	Reeds Spring	33
	Fern Glen	33
	Choteau	33
	Sulphur Springs	33
	Silurian	33
	Edgewood	33

	<u>Contents</u>	<u>Page</u>
	Ordovician	34
	Maquoketa	34
	Fernvale	34
	Kimmswick	35
	Decorah shale	35
	Plattin Limestone	35
	Joachim Formation	36
	St. Peter Sandstone	36
	Structure	36
	Paleozoic Sediments	36
	The Basement Complex and	
	Structure	37
Chapter 4	LOCAL GEOLOGY	42
	Introduction	42
	Physical Features	42
	General Description of the	
	Rocks Exposed	43
	Recent Alluvium	43
	Pleistocene Deposits	43
	Black Silty Clays	46
	St. Louis Limestone	46
	Unconformities	48
	Bed Rock Topography	49
	Structure	49
Chapter 5	GRAVIMETER BEHAVIOR	51
	The Instrument	51
	Beam Sensitivity, Null Point	
	and Levels	52
	Dial Sensitivity	53
	Drift	54
	Lag in the Instrument	55
Chapter 6	REDUCTION OF DATA	56
	Drift Correction	56
	Tides	57
	Elevation Correction	60
	Density and its Determination	60
	Terrain Corrections	63
	Correction for Normal Regional	
	Gravity Change	64
	Correction for Regional Gravity	66

	<u>Contents</u>	<u>Page</u>
Chapter 7	A REVIEW OF THE INTERPRETATIONAL METHODS EMPLOYED IN GRAVITATIONAL WORK	68
	The Nature of Gravitation	68
	The Mathematics of Interpretation	71
	Experimental Procedure in Interpretation	76
	The Ambiguity in Interpretation	77
	Condition 1	78
	Condition 2	78
	Condition 3	79
	Condition 4	81
	The Relation between Magnetic and Gravity Anomalies caused by a Single Body	82
Chapter 8	THE MAP AND INTERPRETATION	84
	Accuracy of the Survey	85
	Basic Assumptions Employed in Gravity and Magnetic Calculations	87
	Gravity Calculations and Results	90
	Density Determination	90
	Curve Fitting	93
	Magnetic Anomaly	96
	Syntax of Missouri-Mississippi Confluence and the St. Charles Fault	97
	Conclusions	98
Bibliography	BIBLIOGRAPHY	99
	Geology	100
	Geophysics	110
Appendix I	COMPUTATION OF TIDAL EFFECT	121
Appendix II	GRAVITY DATA	126
Appendix III	EXPERIMENTAL DATA EMPLOYED IN THE CONSTRUCTION OF FIGURES 17, 18 and 19.	136
VITA AUCTORIS		140
